Anti-Virus

Installation of Trend Antivirus on 3 systems. \$129. Limited to 1.5 hour labor . Virus removal extra. While supplies last.

Basic Spyware and Anti-Virus removal off-site \$49. Severe infection (requiring more than 1 hour) removal extra. Negotiable.

Remote Maintenance

Remote monthly maintenance \$129/month. We remotely access your servers/computers and perform updates, check for problems and do performance improvements. Limit to 3 hours labor per month. Initial set-up required and may be extra. Discounts for on-site labor. Guaranteed. Great for the environment and your bottom line!

Pre-paid Service

**5 hours
on-site or
remote
business svc**

\$329*

(\$65.80/hr.)

You save almost \$30/hr!)

Keep your technology tuned-up at a wallet-friendly price.

This also gives you service call priority over other businesses and discounts on published labor rates thereafter.

Other plans available.

Telephone

\$16.58/month per line. Use your same phone. Unlimited long distance in USA, Canada and Puerto Rico.

30+ calling features. Includes softphone software for use on computer at no cost. Voicemail can be delivered to any email account. Selective call rejection, no more telemarketers!

Get numbers in almost any area code for 4.95/month. Get a local Vegas, Elko or Sacramento number for your clients.

Toll-free service available starting at 4.95/month. Performs better than Charter, AT&T VoIP, Vonage. Cheaper and no contract!

Disaster Recovery Planning

Have you had a severe service incident (an outage lasting more than a few hours) at your business recently? You might benefit from DRP. We'll come by and for a negligible fee, we'll help you identify how to make your business run when bad things happen.

Is your critical data offsite? If a virus hits can you recover? If you have an employee who accidentally overwrites a critical file, can you recover it? If the power goes out in the middle of a transaction will your systems recover?

Is your data being backed up? We have many ways to backup your data, it's a lot cheaper than you might think and it's truly the best insurance you can buy. Hard drive recovery is expensive and inherently risky, backing up data is none of those.

Remote backup of Windows Servers starts at just \$5 per machine per month. Includes system state, Fox-Pro, Access, Oracle, SQL, SharePoint and Exchange databases instances.

Call us today for your own plan and sleep better at night.

Wireless network set-up. Includes wireless router, patch cable, and setup of one customer-supplied wireless laptop or computer. \$129.

Business Gateway Router with Anti-Virus/Spam/Web Site blocking & monitoring/VPN access. Many more options available. Starting at \$429.

Employee computer/network/phone monitoring. Not sure what your employee is doing online? Call.

Multi-line business phone system with auto attendant (IVR) and voicemail. Starting at \$599 with no monthly equipment fees! Expandable. Upgradable.

Remote site monitoring. Watch and/or listen to your business anytime day or night! Cut down of time-card fraud, theft, burglary and/or vandalism. Call.

We also handle **licensing** for Microsoft, Symantec/Norton, McAfee, Raxco, Intuit, Autodesk, etc. Please email us (sales@officeprofessional.com) with product and quantities for quoting. We offer discounts on installation of products bought from us!

Network wiring installation starting at \$79/line.
